## **Display Device**

Locally access controllers and operational properties or manage a small facility with the easy-to-use BACview<sup>6</sup> keypad/display. It simply plugs into an Rnet connection and allows you to display and modify user-defined properties without any computer software. The BACview<sup>6</sup> features a numeric keypad, directional keys, and four programmable function keys. A large 4-line by 40-character backlit LCD display is provided for easy reading even in poor lighting conditions. The device also includes an alarm indicator light and audible warning.

## **Key Features and Benefits**

- Compatible with I/O Zone, I/O Flex, and I/O Pro Controllers.
- Flexible design allows panel or wall mounting; can be located up to 500 feet from the control panel.
- Can share Rnet (OEMCtrl sensor network) with up to 5 Room Sensors.
- Backlit LCD display enhances reading even in poor lighting conditions.
- Allows customization of building properties for each project using industry-standard HTML.
- Password protection provides security.

## **Specifications**

| Power                  | Supplied by the 4 conductor cable (+12Vdc @ 250mA).                                     |
|------------------------|---|
| Physical               | Rugged aluminum enclosure for protection and easy backplane mounting.                   |
| Operating Range        | 32° to 130°F (0° to 54.4°C), 10%-90% RH non-condensing.                                 |
| Backlit LCD Display    | 4-line by 40-character display.   |
| Hardware Compatibility | All controllers with Rnet capability.   |
| Status Indication      | HTML programmable 4-line by 40-character back lit LCD display with alarm LED indicator. |
| Protection             | Provides 15KVESD protection to the enclosure.   |
| Listed by              | UL 916 (PAZX), CE (1997), FCC Part 15 - Subpart B - Class A.                            |
| Weight                 | 1.2 lbs. (0.54 Kg)  |
| Mounting               | Wall or panel mounting; remote mounting up to 500 feet. Standard J box may be used.     |
| Overall Dimensions     | 9-5/8" (width) by 4-15/16" (height) by 1" (recommended panel depth).                    |

245mm (width) by 125mm (height) by 25mm (recommended panel depth).
